3 Bedrooms | 1 Bathroom | 840 Sqft

Welcome to year-round lakefront views by the sought-after Hideaway Marina! Built in 1967 by legendary Frisco Railroad Conductor Cap Foster--his primary residence for over 20 years--this gem has spared no expense in updates. Enjoy approximately 1.72 acres of waterfront property bordered by Corps of Engineer land and a powerline right-of-way, ensuring no one can build close to the home while still leaving plenty of space for a shop, garage, or potential expansion. Highlights include a maintenance-free metal roof, all-new decking on a 1,200 sq ft deck, new vinyl windows, updated plumbing and electrical, plus a newer propane furnace and A/C unit. Fresh paint, newer cabinets, and luxury vinyl plank flooring round out a nearly maintenance-free package. A stackable washer and dryer hookup, a 10x18 storage shed, and newer exterior doors add to the convenience. With easy paved access and a circle drive, you're just 20 minutes from the Branson West Walmart--perfect for a weekend getaway or to downsize for retirement. Enjoy a secluded, private setting less than an hour from Springfield or Branson, and ask about the 10x24 third-party boat slip available on a community dock just a golf cart ride away! Seller is motivated and open to trades. Electric Water Heater, Free Standing Stove: Electric, Microwave, Water Softener Owned,
