\$293,500

4 Bedrooms | 2 Bathrooms | 1,694 Sqft

Seller says SELL this updated 4-bedroom, 2-bath home with a spacious kitchen - granite counter tops, custom cabinets, stainless steel appliances and luxury vinyl floors throughout. The front entry room, with multiple windows, could serve as a sun room, workout area, office, or just a quiet sitting room with lots of sunlight for growing plants, sewing, or working on crafts and hobbies. Step out the kitchen door and to your right you will see the entrance to the partial basement/storm shelter, and a two-story, 1,369 sq.ft. garage with storage space upstairs that could be used as office space or made into a small apartment. The garage, equipped with electricity, running water and a bathroom, houses more than enough space for a workshop. It was once used as an automotive repair shop, the back of which is easily seen from Hwy. 5. It has three overhead doors, one of regular size and two oversized for parking tall vehicles, boats or RVs. There is also front office space and a parking area. This property is zoned for both residential and/or commercial purposes, so don't miss your chance to see this one and put your imagination to work. Schedule a showing today!
