This parcel at the Lake of the Ozarks, MO is a lovely choice in this offering because of the beautiful rise of the land giving a raised view of the lake with access into the cove. It would make a lovely location to build a home .It comes with 214 ft of back of the cove footage - great for low water activities - small children- kayaking- floating on a tube and possibly fishing. Not all land is the same and this is exceptional in the way it lays and the views it provides...Come take a look
