Approximately 17.7 acres prime for development in Lake Ozark. Great location for growth! Located next to several residential and commercial developments. Site is welcoming to a residential or multi family development pending Lake Ozark approval. Lots of opportunity as the property is surrounded by other large tracts of land. Expansion is happening in Lake Ozark. This is the way of the future. This property actually abuts the proposed casino site in Lake Ozark. Can you imagine being able to purchase over 17 acres next to a Casino at this price!
