Incredible opportunity for comfortable lake living; and the sellers have invested where it counts. Over the past two years, the home received new subflooring and vinyl plank flooring, a new well pump, and a professionally installed HeliTech system that includes a vapor barrier, French drains, and sump pump. New front and back decks expand usable outdoor space, and a brand-new roof installed in Fall 2025 removes one of the biggest future expenses from the equation. The layout includes a functional kitchen with space to add an island, a huge main living room with an additional flexible room that could be a formal dining room, extra family room, or game room. The house includes a one-car garage with room for storage and a fenced-in backyard. A 10x24 boat slip with lift sits just down the street, giving you easy access to the water without the traffic and congestion of a main-channel setting. From the dock, it's a calm paddle to Ha Ha Tonka State Park. On land, you're a golf cart ride from Lake Valley Golf Club and directly across the highway from Old Kinderhook. Close to Camdenton and Camdenton Schools.
