\$60,000

Discover the freedom and possibility of 5.75 beautiful wooded acres just about four miles north of Eldon. Tucked away in the quiet countryside, this fully wooded tract offers the kind of privacy and peace that's getting harder to find. Mature trees stretch across the entire property, creating a natural canopy and the perfect setting for a future homesite, weekend retreat, or hunting getaway. Whether you're dreaming of building a cabin in the woods, parking a camper for fall weekends, or simply owning a slice of ground to explore and enjoy, this property gives you room to breathe. With no improvements, you have a blank canvas no restrictions from someone else's vision, just raw land ready for yours. Carve out trails, create a clearing for a home, or leave it untouched and enjoy the sights and sounds of nature just minutes from town. Conveniently located close enough to Eldon for shopping, schools, and amenities, yet far enough out to feel truly removed, this acreage offers the best of both worlds: accessibility and seclusion. If you've been waiting for the right piece of ground to call your own, this could be it.
