Ever looked at a piece of land and thought, 'Yeah, this is the one'? Well, prepare yourself, because this is definitely the one. Nestled on the iconic Virgin Bluff overlooking Table Rock Lake, this stunning approximately 25.82-acre waterfront property is practically begging someone with vision to come along and make magic happen. We're talking jaw-dropping, pinch-yourself year-round panoramic lake views that stretch on forever. The kind of views that make people pull over, get out of their cars, and just stare for a while. Here's where it gets really exciting. This land has already been subdivided into lots 13 through 47, which means a significant chunk of the planning legwork is already done. Whether you're envisioning a lake estate or residential development that practically sells itself -- the groundwork is laid and ready to go. The serene setting offers the perfect balance of peaceful Ozarks living with convenient access to one of Missouri's most beloved lakes. Table Rock Lake draws visitors and residents alike with its crystal-clear waters and endless recreational opportunities. Opportunities like this don't exactly grow on trees -- even in the Ozarks. Take a look before someone else claims this gem. *Some photos are virtually enhanced*
