Here is your chance to make a living farming. This active, 5,000 bird pasture conventional egg barn is sitting on 80 acres. The entire property is fenced and cross fenced, with about half being high fenced. There is a large steel framed barn currently being used to care for sheep and goats. There is a private gravel lane through the property that makes accessing all of the farm a breeze. The large pond, the concrete pad and extra grain bins, and the livestock shelters are just a few more of the outside amenities. Don't forget about the home! It has been well maintained and updated. With large rooms, an open floorplan and a fantastic view, you will not be disappointed.
