This spacious 2-story walk-out basement home sits on 20 acres in Webster County on a paved road! Upon approach you'll enjoy the garden lights and meandering driveway amongst the trees. To your left is the barn, currently utilized by the Nigerian dwarf goats. To the right of the home is a playset, garden area, and retro-fitted shed used as a chicken coop. Raised front porch of the home opens to multi-use rooms on either side of the staircase. Bay window seating, built-in book cases, beautiful beams, hardwood floors and a wood-burning stove make the family room the main feature. Imagine curling up with a good book while it gently rains outside and the fire is roaring! Large kitchen with a pantry provides plenty of space and functionality. Separate dining room overlooks the backyard forest that's rich in edible plants and marketable timber. Plenty of room for horses, livestock, gardening, or outdoor recreation. Rare combination of space, privacy and convenience.
