MLS# SOM60325975

\$219,900

This is the kind of property people wait for. 20 acres of rolling ground, scattered timber, and wide, open views; offering multiple beautiful spots to build. Whether you're looking for a hilltop homesite or something tucked back in the trees, this land gives you options. A secluded pond and spring-fed creek bring both character and function, creating a setting that feels private, quiet, and removed from the road. Water and electric are already established, helping take the guesswork out of your next steps. Located in the Morrisville School District and serviced by Southwest Electric, two features that continue to stand out. Peaceful, private, and still within 30 minutes of Springfield, this one is ready for whatever you have planned next.
