Rarely does a property come along that offers this combination of acreage, lakefront, privacy, and living space. Situated on approximately 24 gentle acres, this impressive 6-bedroom, 3.5-bath lakefront home creates the ideal setting for those seeking a private retreat, family compound, or estate-style property at Lake of the Ozarks. With ample room to spread out, the home offers multiple gathering spaces for entertaining, holidays, and making lifelong memories. Outside, the gentle acreage provides endless possibilities for recreation, additional improvements, or simply enjoying the peace and privacy that are becoming increasingly difficult to find. Adding even more value, the large detached garage/shop provides storage for vehicles, boats, equipment, and lake toys. Major capital improvements have already been completed, including brand-new roofs and gutters on both the home and shop, along with a newer septic system, giving the next owner confidence that many of the big-ticket expenses have already been addressed. Whether you're searching for a secluded full-time residence, a family getaway, or a unique lakefront estate property, opportunities like this are few and far between.
