Unique opportunity to own four connected lots in Four Seasons totaling 2.5 acres!! The last lot in the sequence of lots has a small pocket of lake frontage with it. These lots are all gentle to moderate slope and would be ideal to build on. Wonderful lots to build multiple homes or build one home and keep the other lots for privacy. All homes that are built already are all very nice. Lots are located on a street that doesn't have a lot of homes and minimum traffic. Enjoy access to all of the Four Seasons amenities, including pools, indoor aquatic center, tennis courts, a dog park, playgrounds, and much more. Conveniently located near shopping, dining, schools and more.
