Rolling pasture with ponds and creek in South Central Missouri! There are even ponds in the wooded area for the heat of summer. Property has a large fixer-upper home that has 3 bedrooms on the main level and 3 more on the lower level. The home was built to house a generational family with a kitchen on each floor. The back deck and walk-out basement overlook the rolling hills of the Ozarks! There are two shop/barn buildings near the home, which sits privately off of the paved road. There is a concrete creek crossing on the driveway leading to the home. This home needs a lot of work, but could be a wonderful home for someone that can visualize what it can be. The 79.47 Acres M/L is currently running cattle.
