5 Bedrooms | 4 Bathrooms | 3,360 Sqft

The views from this modernly constructed lakefront home are outstanding! As you walk in you are drawn to the expansive main channel views through the wall of triple 8 ft, black sliders. This 5 bedroom home was constructed with quality products including vertical fiber cement board siding(hail, water and fireproof), 40 year metal roof, and a slew of high end interior finishes. The home is situated wonderfully on a large lot in Four Seasons that offers 168' of shoreline & gives you a very private setting. The sellers are leaving nearly everything so here is your chance for a turn key residence. One of the best parts is you can enjoy the view of the main channel but your dock is situated towards the back of the cove where it will not get tore up from the rough water, you can enjoy swimming on the roughest of weekends! Interior features include soaring ceilings, quartz counters, an oversized island with prep sink, & master suite with a spa-like bath. The home is south facing so you will certainly enjoy both huge decks, one of which has an included hot tub. Be sure to check out the lower level golf cart garage and the 526 sq ft unfinished area above the garage which is ducted for HVAC.
