4 Bedrooms | 2 Bathrooms | 2,834 Sqft

Rare Opportunity - 642 Acre Legacy Farm on the Osage Fork of the Gasconade River. For the first time ever, this extraordinary 647-acre farm is being offered to the public. In the same family since the early 1900s, this legacy property is steeped in history and natural beauty, offering a once-in-a-lifetime chance to own a true Ozarks treasure. With the Osage Fork River running through the land and multiple natural springs feeding into a spring-fed pond stocked with bass, the property offers exceptional water features that are both scenic and functional. Rolling pastures and fertile hayfields make this an ideal setup for a productive cow/calf operation, with ample room for expansion. Several functional outbuildings provide space for equipment, livestock, and storage, with the existing Historical farmhouse. Whether you're looking to expand your agricultural operation, develop a recreational retreat, or invest in a piece of Missouri history, this farm has the potential to fulfill a wide range of dreams. Large tracts with this combination of size, water, and heritage rarely become available. Truly remarkable piece of land.
