Just outside West Plains city limits, this remarkable property spans just over 60 acres across two parcels of scenic Missouri countryside. A paved driveway winds through mature trees to the two-story residence, perfectly positioned to capture panoramic views. Recently remodeled, the 5-bedroom, 4-bath home with a fully finished basement blends mid-century modern charm with modern comfort, featuring a new metal roof, new ductwork, and dual heating options--an outdoor boiler or all-new electric. The kitchen is a showstopper, offering custom gray cabinetry with gold hardware, quartz countertops, stainless steel appliances, and a large island with bar seating. The adjoining dining area opens to a walk-in pantry with matching cabinetry, while a nearby guest bath features a walk-in shower. The main living room impresses with its floor-to-ceiling brick wood-burning fireplace, beamed ceilings, and abundant natural light. A main-level bedroom or office adds versatility. Upstairs, a second living area offers sweeping views, a luxurious primary suite with walk-in closet and renovated bath, and two additional bedrooms sharing a full bath. The fully finished basement provides a third living area or game room, fifth bedroom, fourth bath, kitchenette, and laundry--perfect for guests or extended family. Outdoor living shines with a screened-in patio,
