Some homes are built to impress. Whispery Lane was built to enrich everyday living. Nestled on five private acres overlooking a scenic pond, this extraordinary 6,154 SF custom estate includes a 1,700 SF private living suite beneath the same roofline, creating a rare opportunity for multigenerational living without compromise. Long before construction began, every major decision centered on one question: How will this improve the experience of living here? That philosophy shaped everything--from the home's placement overlooking the pond to the east-facing windows that welcome gentle morning light, the seamless connection between indoor and outdoor living, and spaces thoughtfully designed for gathering, privacy, and everyday life. The private living suite features its own entrance, oversized garage, full kitchen, living room, office/second bedroom, laundry, screened porch, generous storage, and accessible zero-entry bath. Altogether, the home offers two kitchens, two living rooms, two laundry rooms, three HVAC systems, two ERV systems, and two tankless water heaters. Outdoor living is equally exceptional with a heated 20'x40' saltwater pool, automatic cover, sun shelf, hot tub, Sport Court, Rainbow Play System, expansive patios, screened porches, firepit, and beautifully landscaped grounds designed so every space
