5 Bedrooms | 5.5 Bathrooms | 4,748 Sqft

Space, space, space! This 5 bedroom, 4.5 bath home has plenty of room inside and out for whatever your heart desires. Entertain in the open living space or formal dining room, or cozy up with a good book as you sit next to one of many windows with a view. Upstairs, which has a second living space, bedroom, and full bath, is also plumbed for a kitchen, leaving you with endless possibilities! Speaking of view, outside is 11.5 acres of open playing field. A fully fitted 30x40 shop building gives you even more indoor space to "be inside while outside." And of course the 3-car attached garage wraps it all up. Country living with city amenities... natural gas and city water! Upgrades include a newer roof (2021) and HVAC (2022). Last but not least, when those storms hit you'll know you are secure in the 10x10 concrete vault "safe room."
