4 Bedrooms | 2 Bathrooms | 1,836 Sqft

4BD 2BA Home on nearly 20 beautiful rolling acres with a stunning view from the screened in front porch. The porch is the entire length of the home and wraps around to connect the 2-car garage. There is a fenced back yard behind the house with another covered back deck as well. The 2 containers on the property convey & they are connected by a carport for storage of farm/yard equipment or extra parking. There is a dry stream & pond as well. When you step inside, this home has had extensive remodel even though it was built in 2024 to make it more modern and unique. The strips have been removed from walls, making it feel very inviting. Beautifully painted blue cabinets house quartz countertops along with a kitchen island, white farm sink, & tiled back splash. Double doors lead to a utility area with more cabinets for storage. The entire house has updated LVP flooring. Most light fixtures have been updated, along with closets, etc. Generator does not convey, but home is wired for generator hook up. The back sliding glass door has been replaced in remodel, along with a beautiful front door. There are separate utility connections located toward the front of the property for possible secondary home placement.
