2 Bedrooms | 1 Bathroom | 991 Sqft

There are a few streets in Versailles that feel like their own little pocket of town, and this is one of them. This 2 bedroom, 1 bath home offers something that can be surprisingly hard to find at this price point: beautiful updates, fresh paint, well maintained & an incredible lot. The kitchen has been thoughtfully remodeled with white cabinetry, warm wood countertops, floating shelves, a large stainless steel sink & plenty of character. Just off the kitchen, the spacious laundry room is one of those everyday spaces you'll appreciate, with plenty of room to function & convenient access straight to the large backyard. Outside, the oversized fenced backyard gives you room to spread out, whether that means pets, kids, gardening, entertaining or simply having a little more space of your own. A detached garage adds valuable storage or workshop space, while the metal roof on the house offers another peace of mind already in place. Mature trees, a spacious yard & a tucked-away location give the property a setting that feels more private than you'd expect while still keeping you close to everything in Versailles. This is the kind of home that makes everyday living in town more enjoyable.
