Nestled in the trees down a long, private driveway, this beautiful custom built home awaits. Walk in the front door to the open concept living and kitchen area. High vaulted ceilings, with real cedar beams and a large stone fireplace in the living room gives a rustic feel. In the kitchen, custom hickory cabinets and red island are a perfect compliment to the rustic flow of the home. The master suite has a walk in closet and newly updated Onyx walk in shower. Off the laundry room is the 2 car attached garage with a storm shelter poured into the concrete. Out the back door onto the large patio, there is more than enough room for entertaining. The home features a plumbed propane line for your gas grill or fire pit. The other end of the patio leads to a large deck that wraps around two sides of a 16x32 above ground pool. All of this is next to a 30x40 shop building with lean to. All of this sits on 11 acres, pasture on one side and a wet weather creek with an abundance of trees on the other. There's so much to see, call your local trusted agent for a showing. Agent owned home.
