3 Bedrooms | 3 Bathrooms | 1,915 Sqft

This is not your typical lake house. From the log-style design to the gentle lakefront setting, this home has a character and feel you simply don't find very often. Offering nearly 2,000 sq. ft., the home features 3 bedrooms, 3 bathrooms, two separate living areas, a lower-level wet bar, and plenty of storage, giving you great space for entertaining family and friends. The fully remodeled kitchen anchors the main level and gives the home an updated feel while still complementing its unique style. The property has been incredibly maintained with major improvements completed over the last few years, including a new roof, HVAC, flooring, doors, decks, and more. Outside, a circle drive provides plenty of parking, while the gentle lot makes getting to and from the water easy. Located at the 44 MM, the lakefront offers deep water, excellent cove protection, and a large dock envelope with plenty of room to bring in that dock setup you have always desired! It's a combination of water, protection, and usability that's tough to beat. With its distinctive style, extensive updates, great water, and easy lakefront setting, this is a property that truly stands apart at Lake of the Ozarks.
