**\$985,000**

Some properties are simply irreplaceable and this is one of them. Offered as two parcels together, spanning 16 pristine acres along the Osage Arm at the 34 mile marker, this rare lakefront offering boasts an estimated 1,675 feet of lake frontage and provides an extraordinary canvas for a private estate unlike anything else on the market. Tons of level land make this parcel ideal to build on, with ample room for multiple homes, each with the potential for amazing lake views and dock ability. Sweeping shoreline, sun-drenched water views, and rolling acreage come together to create a setting of true seclusion and grandeur, just minutes from the conveniences of Camdenton. Dock drawings have already been thoughtfully drafted, offering a head start toward realizing your vision on the water. Whether envisioned as a legacy family estate, a multi-home development, or a signature custom build, this is an exceptional opportunity at the Lake of the Ozarks.
