Lakefront legend! Some lake homes are built around the view. This one was built around the experience! Set on just under two acres, this luxury Table Rock Lake retreat combines striking architecture, sweeping lake views, and spaces designed for gathering on a grand scale. Soaring windows, rich natural finishes, multiple fireplaces, and designer furnishings set the tone, while the impressive kitchen features a wraparound counter with abundant seating. Whether hosting holidays, weekend getaways, or a full house of guests, this home was built to entertain! The primary suite provides a private sanctuary, while five additional bedrooms offer plenty of space and privacy throughout the home. Outside, expansive covered decks, gorgeous landscaping, and a private pool create a resort-like setting overlooking the lake. A separate two-bedroom guest house next door gives visitors their own kitchen, living area, bath, and outdoor space. The package continues with a 12-car metal shop, three covered 10x24 boat slips plus two boats and trailers. More than a lake house, it's a destination designed to be experienced, shared, and enjoyed for years to come. This is where lakefront legends are made! Schedule your private showing today.
