When you get it right the first time, you stay awhile. Some houses are built for living, but this one was built for a life of love, and for 30 years, that is exactly what has filled it. Life, love, laughter and memories. Built in 1996 by local craftsmen for the family who has called it home ever since, this Table Rock Lakefront property is now being offered for sale for the very first time. With over 5,500 sq ft, 6 bedrooms and 5.5 baths, this home was designed with room to live comfortably, room to gather, and room to grow through every season of life. Thoughtful craftsmanship can be found throughout, from the generous room sizes to little details like pull out kitchen cabinetry that remind you this is a custom home built to be enjoyed for generations to come. The main level features an expansive primary suite, laundry room and multiple gathering spaces, while the beautiful sunroom wrapped in windows may quickly become your favorite place for morning coffee or quiet evenings surrounded by Table Rock lake and the beautiful Ozarks. Upstairs offers additional bedrooms, baths and living spaces, while the finished lower level provides even more possibilities with bedrooms, baths, living areas, workshop, storage, an option for additional laundry and space to add a kitchen for a separate living area. Best of all, Table Rock Lake is right outside your door, with a gentle walk
