314 +/- ACRES

\$1,411,650

Incredible opportunity for over 300 acres with sweeping views of the Ozarks hills and Table Rock Lake! This sprawling property is located just 10 minutes to Reeds Spring, and also convenient to Cape Fair, Branson West, and Kimberling City. Bordered on the south by around 400 acres of US Forest Service land, then Corps of Engineers Table Rock Lake frontage. The north border is roughly 3000' of Highway Y frontage. There is electric already running on property. Currently used as hunting and recreation land (you'll see multiple stands and blinds), but would make an incredible spot for a private estate, multiple residences, or the development you've always imagined. So many possibilities! There are a couple of high points that would offer the most amazing panoramic views! Acreage this size with these views do not come available often so close to Table Rock, so don't miss this one!
