$530,000

WOW! What an opportunity! Farm ground, development land, or your very own homestead! This 53 acres is lush with a very high quality dirt that has been used for hay fields for many years! This land is VERY gently rolling to almost level and would serve almost any need. Laying along the blacktop highway makes for a very desirable piece of Missouri property! This property also offers a very nice pond just right of fishing, or playing in the canoe! DON'T MISS OUT HERE!!!!!
