The table is set on the terrace, the boat is down in the cove, and the main channel of Table Rock Lake is the view everyone came for. Behind its gates on approximately 1.5 lakefront acres, this Mediterranean-inspired estate offers 8, 860 square feet of fully furnished living space, with six bedrooms, 10 bathrooms, and soaring ceilings that give the lake views room to breathe. An approximately $1.35 million interior renovation was completed in 2024, followed by new geothermal heating and cooling in 2026. A private elevator connects two fully equipped living levels, so a house full of guests can gather for dinner and still have room to spend the morning at their own pace. The detached 3, 600-square-foot collector's garage has climate control, oversized doors, extensive cabinetry, plumbing, and a private apartment. There's room on the grounds for a future pool, subject to applicable approvals. And when the lake calls, a 12-by-30-foot boat slip and two Jet Ski ports are available at the gated, locked community dock in the cove just below the estate.
